Six self-replenishing tubes gives highest change capacity and utmost flexibility.

Single payout configuration covers all price points. It also supports 20% more unit sales than competitor's best configuration.

Cash accountability plus adjustable fill indicators give quick coin level verification and coin activity report.

Industry proven **single motor ratchet drive payout**. Fewest parts for long life and reliable operation.

Coinless field tuning: no need to drop coins or tokens in the field.

Standard **data port** for quick software updates and coin/token additions.

Relevant Information. Clear, concise communication of the data you need when you need it.

Intuitive LCD menu layout and navigation.

Flexible menu system to meet your specific operational needs.

Visual & audible status notification ensure optimal system operation and maximum time in service.

Swing-out payout cassette for swift coin loading without cassette removal.

Faster floating. Guardian 6000™ anticipates and guides each step in the fill process.

Payout illumination ensures accurate coin loading. Light double as system status indicator.
